IMPORTANT NOTICE

Due to disk space limitations, the three stadiums provided with the game disk had to be loaded on the reverse side of the disk. If you want to play in SubLOGIC Stadium, Yankee Stadium or Dodger Stadium, when prompted to

"Enter Stadium Disk
Then Press [Return]"

first remove your game disk from the disk drive, turn it over and reinsert it in the drive, and then press return. This modifies the instructions on page 10 of the Instruction Manual.

Also, on the Apple IIc and IIe machines, the cap lock key must be depressed when loading the program.

Good luck in your managerial career. We are sure you will find the game challenging and exciting. As always at SubLOGIC, we welcome your comments and suggestions.
